

I'm Temiloluwa Joshua Kogbodoku, and I've been collecting limited sneakers as a hobby for the past six years, and I've struggled to do so, particularly during the 2019 lockdown.

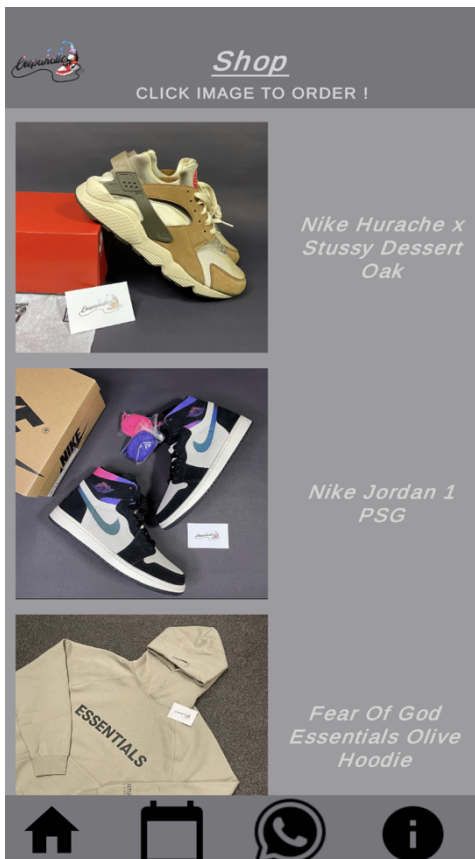

The Crepaholics UK App has six key features that help improve its users' chances to secure a limited pair of sneakers. These consist of a home page, a release dates page, a WhatsApp page, an information page, a shop page, and a pre-order page.

- The perfect app for anyone interested in in fashion and sneakers.
- Provides news & leaks on the latest fashion and sneaker
- Time, date and links for upcoming sneakers
- This apps makes purchasing limited sneakers easier

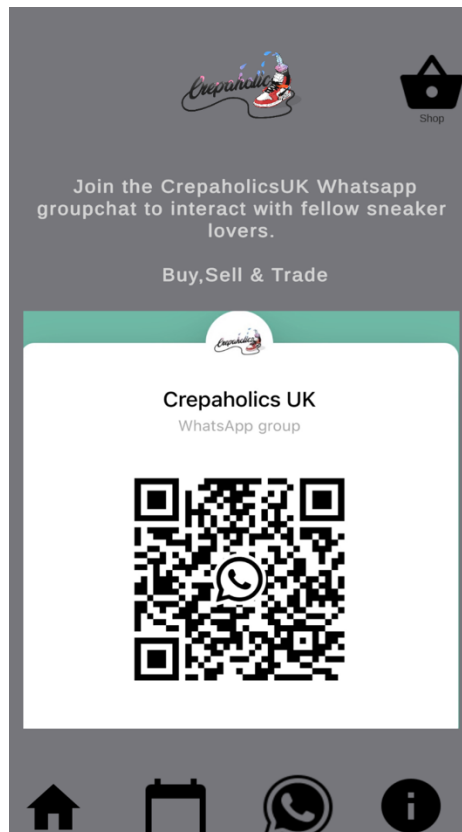

The home page keeps users up to date on the latest fashion and sneaker news, including music artists and their most recent collaborations, leaked sneaker and fashion news, and new Crepaholics stock.

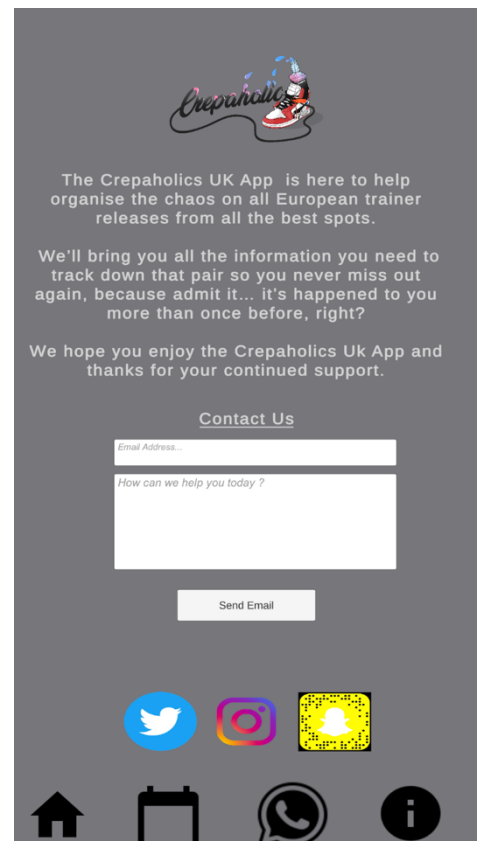

The release dates page is the key feature of the Crepaholics UK app; it informs users of the time and date an item will be released, as well as providing direct links to buy the item.

The Shop feature helps users to look at the things that Crepaholics has available for sale presently.

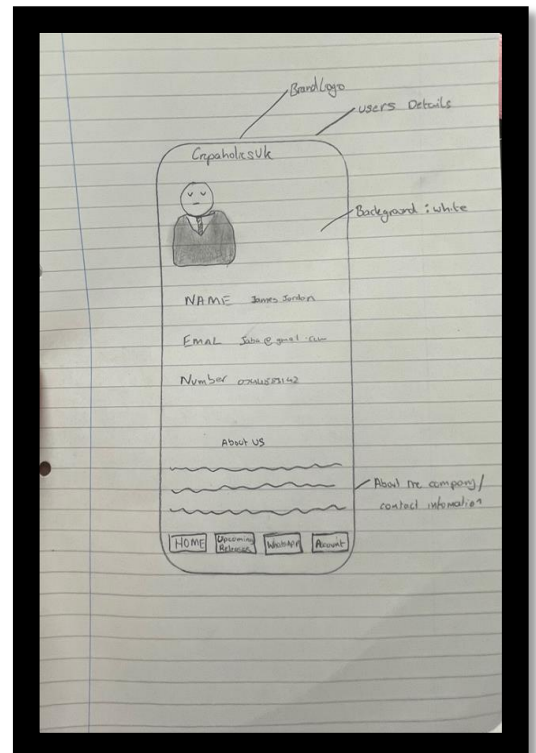

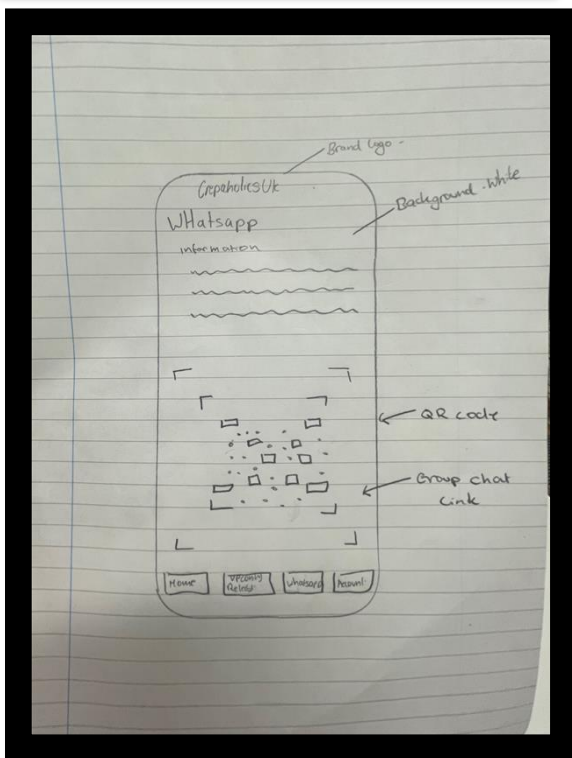

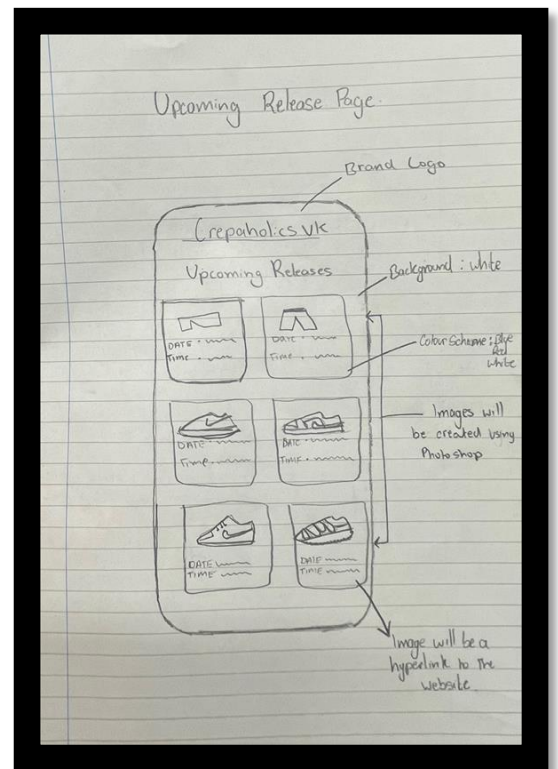

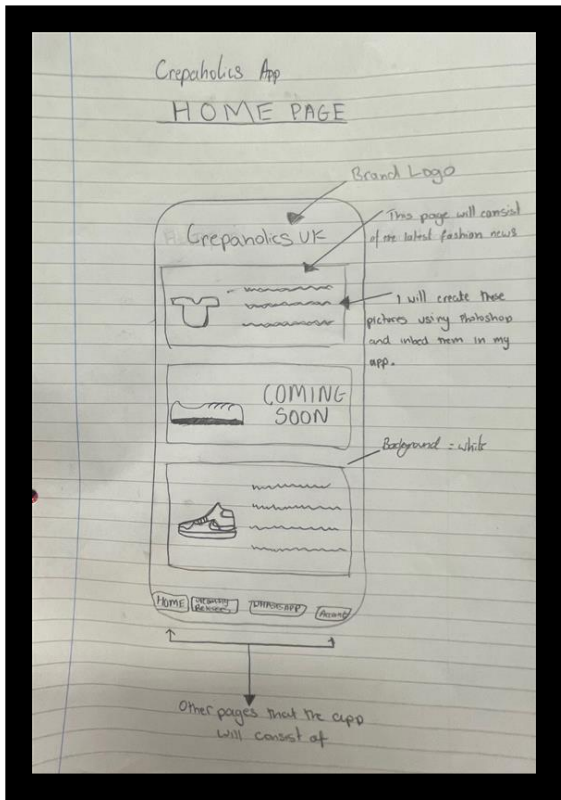

The information page is the Crepaholics UK app final feature. This page gives a quick overview of what the Crepaholics UK app is all about. This page includes a contact form for users who may need assistance or have issues with the app.

The WhatsApp page, which includes a QR code, is another feature of the Crepaholics app. The QR code is a connection to a WhatsApp group where users can talk about sneakers and fashion in general. The aim of the group is to help develop the sneaker community.

Sketches

Here are some drawings and suggestions for the Crepaholics UK app that I came up with. While some of the suggestions made it into the finished product, the user chat did not. This was supposed to be a page where app users could communicate with one another. This functionality was not included in the final product due to a lack of time and resources.
